Olio BHA Pore Melting Cleansing Balm

#MeltsOnContact #PoreCleansing #OlioBHA #PremiumBHA

A gentle cleansing balm that melts into a milky texture as soon as it touches your skin, thanks to our special Reverse Micelle Technology. Oliozone oils gently open up pores to remove impurities, while Premium BHA helps control excess oil, keeping your skin healthy and balanced. With ginger and agave extracts, it not only cleanses your skin but also keeps it soft and moisturized

CHECK POINTS

Balm-to-milk formula that melts instantly

Deep pore cleansing to remove impurities

Removes everything from sunscreen to heavy makeup

– Deep & Gentle cleansing

Zero residue – leaves your skin fresh and hydrated

Smaller than liposomes

– Oliozone particles for deep, thorough cleansing

Balm texture

Melt into a Milky texture

Main Ingredients & Key Technologies

U-Oliosome TECA reverse Micelle Technology for deep yet gentle cleansing

BHA liposome 1% controls excess oil & clears pores

Deep absorption formula for smoother skin

Phytomusin 5 plant-derived mucins strengthen skin barrier

Ginger, Agave removes impurities & blocks free radicals

Korean Pine Leaf, Kudzu Root helps tighten pores for refined skin texture

How to Use

• Use for Deep Cleansing

- 1 Apply coin-sized amount to dry skin.
- 2 Wet fingertips & gently massage.
- 3 Rinse with warm water.

• Use for Balm Pack

- 1 Apply 3 coin-sized amounts to your face after cleansing.
- 2 Rinse off with lukewarm water after 5 minutes.

Benefits & Effects

Deep cleansing: Gently removes dead skin daily and even heavy makeup for clear, fresh skin.

Pore-tightening care: Clears out dirt inside pores and controls oil to help shrink enlarged pores, leaving skin smooth like porcelain.

Moist finish: Agave extract helps keep skin soft and hydrated after cleansing.

Soft and gentle cleansing: Suitable even for sensitive skin.

Olio BHA Pore Melting Cleansing Balm

Pore cleansing with U-Oliosome technology specialized in sebum absorption

Stabilized U-Oliosome penetrates into pores. Four plant-derived ingredients absorb sebum and cleanse pores. Liposome and BHA gently deliver ingredients.

Sebum absorption, dead skin removal, pore care

U-Oliosome TECA

4 highly concentrated active extracts from Centella asiatica (Madecassoside, Asiaticoside, Asiatic Acid, Madecassic Acid)

Delivered through U-Oliosome™ micro-liposome tech Particle size under 50nm for better absorption Targets deep into pores Exclusive sebum absorption tech

BHA Liposome

Contains BHA (Salicylic Acid), liposome certified Removes sebum and dead skin in pores Gentle, non-irritating formula Helps eliminate blackheads and whiteheads Refines rough skin, tightens pores

PORE CARE

Olio BHA Pore Melting Cleansing Balm

Soothing & moisturizing

Phytomusin

Plant-based mucin Forms moisture barrier and prevents water loss Similar to snail mucin in structure Boosts skin hydration and calming Soothes irritated skin Contains collagen-like plant ingredients

Pore control & activity suppression

Korean Pine Leaf

Kudzu Root

Ginger

Agave

Korean Pine Leaf: Polyphenols and flavonoids strengthen the skin barrier and protect

Kudzu Root: Isoflavones suppress sebum and activity

Ginger: Calms sensitive, irritated skin

Agave: Rich in natural sugar, locks in deep moisture

Olio BHA Pore Melting Cleansing Balm

Clinical Test and Efficacy Evaluation

Cleansing power for impurities inside pores

98% cleansing of
impurities inside pores

Improvement in pore volume

93% improvement
in pore volume

Low-irritation certified

Completed skin
irritation test

Human application test conducted on two indicators: pore improvement and removal of impurities inside pores SkinMed Clinical Research Center Co., Ltd. / April 1–29, 2025 / 21 participants Pore volume: Improvement rate immediately after use compared to before use Impurity removal: Cleansing rate immediately after use compared to artificial sebum application Results may vary depending on individual skin conditions.

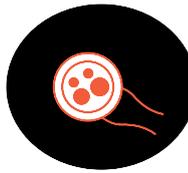

Olio BHA Pore Melting Cleansing Balm

Oliosome particles absorb impurities inside pores, removing sebum and dirt thoroughly.

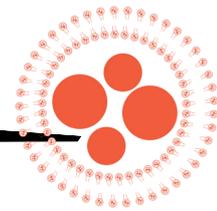

Plant-based particles penetrate deep into pores

Oliosome TECA

5nm-sized particles show excellent impurity absorption.

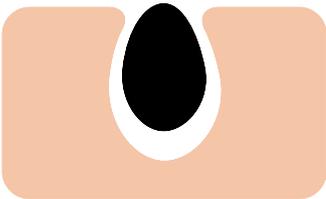

Liposome

Oliosome particles, smaller than pores, remove 98% of pore-clogging impurities and help tighten

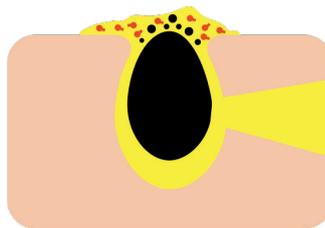

STEP.1

Before use: Pores enlarged by accumulated sebum and impurities.

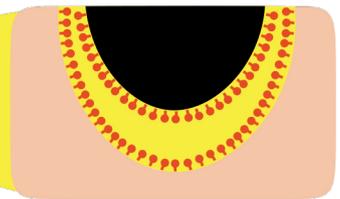

STEP.2

Apply Pore Melting Cleansing Balm.

STEP.3

The balm melts into oil upon skin contact, penetrates pores, and oliosome particles absorb impurities.

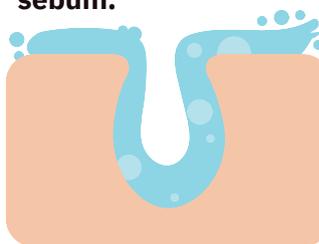

STEP.4

The balm removes 98% of sebum and impurities stuck in pores.

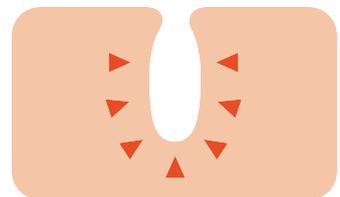

STEP.5

When rinsed with water, it turns into a cleansing milk, removing any remaining residue and controlling sebum.

STEP.6

Contains patented pore-tightening ingredient to shrink pores and calm the skin.

Holy Basil Calm Down Dressing Toner Pad

NEW ARRIVAL

#CoolDown #Dressing #Airytouchpad

Rapid soothing pads quickly calm irritated and reddened skin. Ingredients like holy basil and magnesium deeply hydrate and soothe the skin, promoting a healthy complexion. The AiryTouch Cloud Pad circulates air within its structure to cool the skin, lowering skin temperature and providing ample moisture for a refreshed feel.

Vegan Formula

No-irritation

Key Ingredients

- **Holy Basil** Powerful antioxidant, protects and reduces skin inflammation.
- **Magnesium** Enhances cellular metabolism, boosts skin's moisture retention.
- **Cica-Exosome** Accelerates regeneration, offers strong anti-inflammatory effects for skin recovery.

Special Airy-touch Cloudy Pad

- **AIRY-LIKE TOUCH**
- **Breathable BIO-Pad**
- **Free of adhesive**
- **Biodegradable (45 days)**
- **50% higher moisture retention compared to cotton pads**

FAQ

Q : Why is it important to reduce skin temperature?

Keeping your skin cool is crucial as elevated temperatures can fuel inflammation and lead to acne breakouts. Lower temperatures help in soothing and stabilizing skin conditions.

Q : Why is magnesium necessary for the skin?

Magnesium boosts skin hydration and fortifies its barrier, promoting a supple, youthful look. Its anti-inflammatory properties also soothe irritation, enhancing skin tone.

Q : What are the benefits of holy basil for the skin?

Holy basil calms skin due to its anti-inflammatory properties, historically used in Indian Ayurvedic treatments to soothe and heal.

Soothes irritated skin and promotes cell regeneration

Veggie Grain Mix

Easy and Balanced — 9+ Vegetables in Every Meal

This convenient veggie mix is made with over **9 types of vegetables**, including radish, carrot, pumpkin, burdock, beet, sweet potato, potato, turmeric, and shiitake mushroom.

No soaking needed—just add **one pouch per adult serving** directly into your rice before cooking, just like you would with mixed grains.

It's an easy way to enjoy a wholesome, balanced vegetable rice every day.

* Recommended: 1 pouch per person per meal.
(Adjust the amount to suit your taste.)

Storage Instructions	Store in a cool, dry place away from direct sunlight, heat, and humidity. For long-term storage, refrigeration is recommended.

“ Nourishing Korean Meals, ” Rooted in Nature

The 7th Essential Nutrient Phytochemicals

Phytochemicals are natural compounds found in plants that help them defend against harmful microorganisms, pests, and competing plants. Recently, they've been recognized as the "seventh essential nutrient" for humans, drawing increasing attention in the world of nutrition research.

These powerful plant-based nutrients help protect the body by neutralizing harmful free radicals and are now seen as key players in maintaining overall health and optimal bodily function.

To get enough phytochemicals, it's important to consume a variety of colorful fruits and vegetables—ideally five or more different colors—every day. Unlike typical supplements, phytochemicals are best absorbed when consumed through real foods. Eating a diverse range of vegetables and fruits not only ensures better absorption but also creates a synergistic effect that amplifies their benefits.

Veggie Grain Mix

— This Is What Makes It Great!

#01

100% Korean-Grown Vegetables

We use only 100% locally sourced Korean vegetables.

Each vegetable is dried using a specialized method tailored to its unique properties, helping preserve its nutrients, natural flavor, and original shape.

#02

No Additives, No Preservatives

Thanks to our advanced drying technology, the vegetables require no soaking or rinsing before use.

Absolutely **no additives or preservatives** are added—just clean, wholesome ingredients you can trust.

#03

No Soaking Needed – Ready to Use

Just add it directly to your rice before cooking!

Like mixed grains, these vegetables soften naturally during cooking, delivering a **tender** texture while maintaining their original form.

#04

Convenient Nutrition in Every Meal

Use it as a substitute for grains or as a flavorful base for dishes like baby food, porridge, stir-fried rice, stews, and more.

Easy, nutritious, and versatile.

WHY?

Should We Eat More Vegetables?

Here's why adding more veggies to your daily routine can make a real difference in your health!

Burdock Root

Rich in oligosaccharides, burdock is known to support digestion and is great for those on a diet. Its high fiber content also helps relieve constipation.

Carrots

Great for relieving eye fatigue, carrots are also packed with antioxidants that help slow aging and support disease prevention.

Beets

Beets promote red blood cell production and help supply oxygen throughout the body. They also purify the blood and support liver health.

Shiitake Mushrooms

Shiitake mushrooms are known to boost the immune system. Low in calories, they also support weight management and help prevent diabetes.

Saturday – Hijiki & Kelp

Sunday – King Oyster & Wood Ear
Mushrooms

#02

A Taste of Korea's Healthy Vegetable Table

Traditionally, Koreans enjoy a balanced meal with a variety of seasoned vegetables (namul) served at every meal.

Now, you can enjoy this wholesome habit without the hassle of preparation —just take it easily, morning and evening, in one simple step.

#03

Specialized Technology for the Best Taste

Each vegetable is processed with a unique method tailored to preserve its natural flavor and nutrients.

Made from 100% plant-based ingredients with no additives, this product reflects our commitment to clean, high-quality nutrition.

Instead of using common dextrin additives, we've developed our own plant-based granule powder extracted from potato peels —a testament to our innovative approach and expertise.

#04

How to Enjoy

- Sprinkle directly over rice or noodles
- Add to protein bars, salads, or yogurt for a healthy twist
- Use as a topping in various dishes like wraps, stews, or side dishes

Korean Mountain & Field Veggie Mix

Wholesome and Nutty Flavor, Thanks to Korean Soy Tofu!

Now enjoy the deep, savory taste of traditional Korean **namul** (Gondalbi, SeomssukBujang-i (a wild leafy herb), Perilla Leaves, Spinach, Radish, Mugwort, and Carrot) with an added boost of nutrition.

We've included **dried tofu made from 100% Korean soybeans**, not only to enhance the nutty flavor but also to provide a source of protein, which leafy greens alone may lack.

The product contains **seven types of 100% Korean-grown vegetables**—Gondalbi, Seomssuk Bujang-i (a wild leafy herb), Perilla Leaves, Spinach, Radish, Mugwort, and Carrot and Korean tofu with our unique blend, you can now enjoy **a traditional Korean-style vegetable side dish (namul)** anytime —quickly, conveniently, and deliciously.

Here's why adding more veggies to your daily routine can make a real difference in your health!

Burdock Root

Rich in oligosaccharides, burdock is known to support digestion and is great for those on a diet. Its high fiber content also helps relieve constipation.

Carrots

Great for relieving eye fatigue, carrots are also packed with antioxidants that help slow aging and support disease prevention.

Beets

Beets promote red blood cell production and help supply oxygen throughout the body. They also purify the blood and support liver health.

Shiitake Mushrooms

Shiitake mushrooms are known to boost the immune system. Low in calories, they also support weight management and help prevent diabetes.

Fruit Cube Cereal — This Is What Makes It Great!

LAN'S
SOLUTIONS

Fruit Cube Cereal

Using a specialized freeze-drying method at -40°C , we lock in the natural flavor, aroma, and nutrients of the ingredients without high-heat processing. This way, you get all the goodness with none of the compromise.

Mix with soy milk, milk, yogurt, or cereal for a quick and healthy start

A wholesome snack for kids

A perfect on-the-go breakfast for busy singles and couples

A nutritious meal replacement for professionals who skip meals

Individually packaged in block form for easy storage and convenient portability.

A perfectly balanced meal made with over 40 kinds of wholesome vegetables, fruits, and grains.

Crafted using a gentle freeze-drying process that minimizes nutrient loss and preserves the natural goodness.

“ Parents’ Hearts ” in Fruit Cube Cereal

A Healthy Korean Vegetable Meal, Made Simple

Each cube is crafted with the loving intention of serving a well-balanced, nourishing vegetable dish every day. We packed it with a variety of Korean greens like **water parsley, lettuce, spinach, crown daisy, cabbage, chicory, radish leaves, ramie leaves, mulberry leaves, and mugwort**—just like a hearty side dish.

To add colorful root vegetables, we included **purple and yellow sweet potatoes, Korean radishes, fruit radish, burdock, carrots, lotus root, beets, onions, ginger, and turmeric.**

We didn’t forget **Korean pumpkins and zucchini, antioxidant-rich berries like raspberry, blueberry, and strawberry, and even added sea vegetables like hijiki and kelp.**

For natural sweetness and better digestion, we used blended **fresh tofu and Korean miso, then seasoned with stevia leaf**—a herb known to support vascular health.

To complete the nutritional balance, we included sprouted mung beans, omega-3-rich raw perilla seeds, **sprouted barley in four colors (black, purple, blue, and yellow), oat, and germinated rice instead of white rice.**

This cube isn’t just food—it’s a thoughtful, nourishing, and easy solution for anyone who wants to eat well, even on the busiest days.
